

## WHY SOCIOLOGY AT ALGOMA U?

Algoma University's sociology program is designed to engage with real life problems and issues. We are socially engaged scholars who are active participants in our community and support students taking an active approach to sociology. Our graduates move out into the world with a strong set of research skills, confidence and knowledge, prepared for going into graduate studies and the professional world. Our students leave Algoma as social actors who understand topics foundational to a Canadian identity, such as: relationships with First Nations, diversity, equity and challengers of class and intersected identities. In particular, students will gain an understanding of social movements, race, diversity, gender and sexuality. By third year, students will be familiar with research skills including surveys, interviews, observational studies and focus groups.

### 4th Year Thesis Course

A key element of the program is completing an honours thesis, known as the Research and Critical Analysis course, which allows

students to engage in critical study and theory at an advanced level. Students have the opportunity to design, research, and carryout their own ideas in order to complete the research. Students will be guided by a thesis supervisor who will mentor them through the process. As part of the thesis project, students write a research proposal, collect and analyze data, and present their findings to the public.

## COURSE HIGHLIGHTS

Students studying sociology at Algoma U also have the opportunity to take course electives in the field of anthropology to compliment their studies. Anthropologists focus on cultures of traditional and modern folk societies. Courses offered will familiarize students with cultural anthropology through the use of empirical evidence and analysis. Upon graduation, students in Algoma University's sociology program will have strong written, oral presentation, and research skills – invaluable skills highly

sought after in today's competitive work world and in institutions of higher learning. These refined skills set Algoma U graduates apart from the rest.

## LEARNING OUTCOMES

- Apply sociological principles and concepts to understand yourself as a social actor.
- Demonstrate an understanding of how socialization, and social structure affect personal behaviour, interactions and opportunities.
- Utilize a foundational knowledge of the historical contexts to interrogate the contemporary conditions of Indigenous people in Canada.
- Mobilize an awareness of social justice issue and understand how social inequality is generated, maintained, and resisted.
- Apply various social theories to social issues and problems.
- Gather, interpret, and evaluate quantitative and qualitative data.
- Conduct research independently into contemporary social issues in Canada.
- Ability to write and communicate effectively.

## WHY STUDY AT ALGOMA U IN SAULT STE. MARIE?

Algoma U is located in Sault Ste. Marie, a city of 75,000 people in Northern Ontario. "The Soo", as locals call it, has all the amenities of a big city – shopping, entertainment, sports teams, festivals, and cultural activities – but without the hassle of traffic.

We're lucky enough to live in a city surrounded by the great outdoors. With Lake Superior and the St. Mary's River literally just steps from our front door, there's always something to do. You can catch some sun at the beach or walk our beautiful boardwalk. With the highest elevation in Ontario, Searchmont Resort is a popular winter destination for our students, offering great alpine skiing and snowboarding.

## ADMISSION REQUIREMENTS

ENG4U.  
Minimum 65%.

Applying to Algoma U is simple. We're ready to help answer all of your questions and more. Before you know it, you'll be walking across campus to your first class.

## GAIN. EXPERIENCE.

Experiential Learning is "learning by doing." There are many experiential learning opportunities in the classroom, lab and in the community. Students in the Sociology program have participated in labs, service learning, and consulting projects. A full inventory of Sociology experiential learning opportunities is listed in this Experience Map.

## SKILLS EMPLOYERS ARE SEEKING

With over 2,000 business leaders surveyed, the top skills they would like to see in their employees include:

1. Leadership
2. Communication
3. Collaboration
4. Time Management
5. Understanding the impact of technology
6. Consistent global training

## USING THIS EXPERIENCE MAP

Making a plan in first year will lead to your success. We're ready to assist you with your plan.

This Experience Map offers suggestions, which is a guide to explore many options. Understanding where you want to be will help you make the correct decisions to get you there.

We're also here to help you with your physical and mental well-being. We want you to succeed in all aspects of your life. For further assistance, visit Student Success Central, in NW307.
