

AVIATION MANAGEMENT

Certificate

The Aviation Management Certificate (AMC) is a one year (three semester) certificate that is designed to meet the growing demands in the aviation industry.

The certificate provides both flight (Brampton) and non-flight (Sault Ste. Marie and Brampton) options, with current courses relevant to the aviation industry and external certification opportunities you can pursue!

The AMC allows professionals with college-level education to upgrade their skills to the university level without a commitment of 3-4 years.

For high school students, the AMC presents an excellent opportunity to learn and develop aviation industry specific skills.

The certificate is also ideal for aviation professionals looking to upgrade their skills and abilities to management level allowing for more opportunities for professional development within their current and/or future organization.

SEMESTER ONE (3 courses)
